

 **SEMPRE**

Creating  
*atmospheres*

Sempre creates atmospheres where quality, authenticity and calm come together. We design and curate furniture, lighting and objects that feel natural, tactile and timeless, shaping spaces where people can truly unwind.

Inspired by the places where time slows down, our collections translate the feeling of being away from home into everyday environments. Not as a literal theme, but as a mood: warm, effortless and inviting. Sempre is about soft luxury with a soul. About spaces that breathe, welcome and feel right from the first moment.

About  
*Sempre*

# From the beach *to the mountains*

Our  
*story*

Sempre's renewed story unfolds across two landscapes: the beach and the mountains. Sun-bleached shores, windswept dunes and laid-back beach bars on one side; ski slopes, pine forests and the comforting glow of a fireplace on the other.

Both are places where people naturally unwind. Where materials feel honest, textures invite touch and atmosphere matters more than perfection. Together, they form the foundation of our future collections: two atmospheres, one language of calm, warmth and authenticity.

While the inspiration evolves, Sempre's DNA remains unchanged. Our designs stay rooted in natural, organic forms, strong tactility and a sculptural presence. Only with an added level of refinement. Cleaner lines, clearer proportions and improved comfort make our collections more usable and versatile across hospitality and residential settings, without losing their soul.

# From vision *to atmospheres*

At Sempre, we don't just deliver products: we help create complete atmospheres. From restaurants and bars to hotels, resorts and residential projects, we work closely with architects, designers and retailers to translate a feeling into a space.

Whether inspired by coastal ease or winter retreat comfort, our approach remains the same: listening, refining and building with intention. By combining natural materials, thoughtful design and real-life and bespoke usability, we create environments where people linger longer, feel more at ease and come back for the experience.

# New arrival *discover ASPEN*

ASPEN is Sempre's first mountain collection. Inspired by alpine landscapes, pine forests and the warmth of a fire after a day in the snow, the collection brings a calm, reassuring atmosphere into contemporary spaces. Sculptural forms, generous proportions and soft edges are paired with honest materials such as solid wood, stone, hand-worked metal and tactile fabrics.

Designed for both hospitality and residential settings, indoor and outdoor, ASPEN balances comfort, durability and refinement, allowing the same design language to flow from lobby to terrace, from chalet to city interior.

Aspen  
*collection*

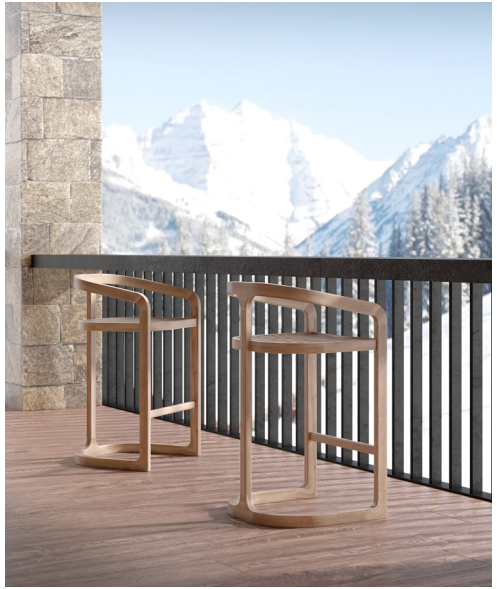

Sculptural forms designed  
*to gather and unwind*

Inspired by alpine retreats,  
*refined for everyday use*

Natural materials with warmth,  
*depth and tactility*
