IN & OUTDOOR LIVING

*“Creators of  
Atmospheres”*

# Our philosophy: *Creators of Atmospheres*

## Foreword

Welcome to Sempre In & Outdoor Living ("Sempre"), where Belgian craftsmanship meets the beauty of natural, organic design. At Sempre, we are dedicated to designing and creating high-end indoor and outdoor furniture, glassware, and decorative items that exude elegance and sophistication. Each piece we offer embodies a unique look and feel—what we proudly refer to as the "Sempre vibe."

Our success is driven by a team of creative and innovative minds with extensive experience in the industry. Their passion for design and commitment to sustainability allow us to craft pieces that are not only functional but also transformative, setting the stage for inspiring atmospheres and memorable experiences. Whether you are curating a retail space, enhancing a hospitality environment, or elevating your home, our collections are designed to infuse any setting with a sense of natural beauty and timeless style. As you explore this catalogue, you will discover the distinct charm and earthy appeal of our products, each meticulously crafted to enhance the organic elegance of your space.

We invite you to immerse yourself in the world of Sempre, where every piece tells a story of nature, craftsmanship, and a commitment to sustainable excellence.

Let's create perfect atmospheres to share great moments with customers, friends and family.

### Our vision & strength

Sempre's vision transcends traditional design. We are Creators of Atmospheres, crafting environments that resonate emotionally and leave lasting impressions. Our philosophy blends natural and organic elements with rigorous attention to detail, creating spaces that captivate and support the aspirations of our clients.

This vision is reflected in all our collections, crafted to harmonize natural beauty with meticulous attention to detail.

At Sempre, our strength lies in our ability to create a vibe with sustainable and luxurious products. Our products are not only designed to be aesthetically pleasing but also to stand the test of time, both in terms of durability and style. This unique blend of eco-friendliness, quality, and timeless design makes us the go-to choice for discerning clients.

# Inspiration

# How it's made

Our lava stone products are meticulously crafted from volcanic rock, a material celebrated for its durability and distinctive texture. The creation process begins with the careful selection of premium lava stone, chosen for its strength and natural aesthetic appeal. Skilled artisans then shape the stone by hand, chiseling and carving it to achieve the desired form, ensuring that each product is truly one-of-a-kind with its own unique character.

After the initial shaping, the lava stone is refined and polished to reveal its inherent beauty. One of the most captivating aspects of lava stone is its natural variation in color depth. This variation is influenced by several factors:

the original temperature of the lava when it solidified, the amount of rain that fell during the cooling process, and the length of time the lava took to dry. These elements combine to create a rich, dynamic palette of colors and textures, making each product a unique work of art.

Designed to withstand the elements, our lava stone products are perfect for both indoor and outdoor use and add a timeless, natural elegance to any setting.

Please be advised that the images included in this catalogue are for reference only. As our products are handcrafted, there may be differences in colors, shapes, and textures in the final products.

At Sempre, our lamps are more than just sources of light—they are expressions of creativity, sustainability, and craftsmanship. We believe in creating products that not only enhance the beauty of your space but also contribute to a more sustainable world. This philosophy is at the heart of our unique approach to making lamps. One of the most distinctive aspects of our lamp production is the use of old fishing nets sourced from Portuguese fishermen.

Instead of allowing these nets to be discarded and contribute to environmental waste, we purchase them and give them a new life as part of our lamp designs. This initiative not only supports a circular economy but also helps local fishermen, who use the funds from the sale of these nets to invest in new, more efficient equipment.

The process begins with carefully selecting and cleaning the old fishing nets. Our artisans then skillfully weave these reclaimed materials into the framework of our lamps, creating stunning, one-of-a-kind pieces that carry the texture and history of their former life at sea. Each lamp is a testament to the beauty of reimagining and repurposing materials, blending rustic charm with modern design.

The use of these nets adds a unique, organic texture to our lamps, making each piece distinct. The natural variations in the material ensure that no two lamps are exactly alike, giving each one its own story and character. This process not only reduces waste but also highlights the possibilities of sustainable design.

At Sempre, we are proud to combine traditional craftsmanship with innovative, eco-friendly practices. Our lamps are not just lighting fixtures; they are symbols of our commitment to sustainability and the circular economy. By choosing Sempre lamps, you are not only bringing a beautiful, handcrafted piece into your home but also supporting a meaningful approach to design that values both people and our planet.

# Materials & finishes

The materials and finishes we choose are not merely surface treatments; they are the essence of the story each product tells. Every material carries with it a unique history, a distinct texture, and a natural beauty that we carefully enhance through our finishes. These finishes are the final touch that brings out the character of each piece, highlighting its strengths and revealing its hidden details.

Our approach to finishes is rooted in the belief that the surface of a material should reflect both its journey and its potential. Whether we leave the stone in its natural state to celebrate its raw elegance or apply a meticulous finish that brings out its deeper tones and textures, the result is always a product that feels authentic, timeless, and refined.

At Sempre, the finishes we apply are integral to the character and beauty of each piece. The Fumé finish, for instance, lends a rich, smoky depth that imbues the material with an elegant, aged appearance. In contrast, the Mud finish emphasizes the natural grain and texture, bringing out an earthy, organic warmth that feels both grounded and inviting.

Our Wax finish enhances the natural luster and durability of the material, giving it a soft, polished look that highlights its rich color and texture. For those who prefer a more contemporary feel, the Cadré finish offers a structured, refined appearance, emphasizing clean lines and modern sophistication.

Finally, the Linié finish focuses on the natural lines within the material, adding depth and highlighting its intrinsic beauty. Each of these finishes is carefully applied by our artisans, transforming each piece into a unique work of art that enriches your space with its distinct character and craftsmanship.

Finish	Natural	
Code	9SW-NT	
Dimensions (cm)	53 x 23 x h.5	

## Tree monument

Recycled teak		Outdoor
Finish	Natural	
Code	9TM	
Dimensions (cm)	30 x 30 x h.180	

# Good to know

Our catalogue showcases a selection of standard materials and finishes, with a curated range of additional options available upon request. If you have a specific concept in mind, we welcome you to share your vision, and we will work with you to tailor it within the parameters of our available customization and production options.

For those seeking something truly unique, we invite you to explore our “Bespoke Items and Projects” catalogue, which offers a carefully curated set of new textures and finishes. These options allow us to craft a distinctive, handcrafted piece that aligns with your preferences, while staying within our established design framework.

In terms of use, we clearly indicate when a product is specifically designed for

outdoor environments. These products are constructed with features that enhance durability in various weather conditions, such as water drainage and material expansion. While these adaptations reduce the risk of weather-related damage, some natural wear over time is to be expected.

Our “Semi” category strikes a balance between indoor elegance and occasional outdoor use. Primarily designed for indoor settings, these items can also be used outdoors under favorable conditions, though they are not intended for prolonged exposure to moisture or direct sunlight.

To maintain their appearance and longevity, we recommend limited outdoor use, ideally in protected spaces like sunrooms or covered patios.
