Atmospheres”*

# Our philosophy: *Creators of Atmospheres*

## Foreword

Welcome to Sempre In & Outdoor Living ("Sempre"), where Belgian craftsmanship meets the beauty of natural, organic design. At Sempre, we are dedicated to designing and creating high-end indoor and outdoor furniture, glassware, and decorative items that exude elegance and sophistication. Each piece we offer embodies a unique look and feel—what we proudly refer to as the "Sempre vibe."

Our success is driven by a team of creative and innovative minds with extensive experience in the industry. Their passion for design and commitment to sustainability allow us to craft pieces that are not only functional but also transformative, setting the stage for inspiring atmospheres and memorable experiences. Whether you are curating a retail space, enhancing a hospitality environment, or elevating your home, our collections are designed to infuse any setting with a sense of natural beauty and timeless style. As you explore this catalogue, you will discover the distinct charm and earthy appeal of our products, each meticulously crafted to enhance the organic elegance of your space.

We invite you to immerse yourself in the world of Sempre, where every piece tells a story of nature, craftsmanship, and a commitment to sustainable excellence.

Let's create perfect atmospheres to share great moments with customers, friends and family.

### Our vision & strength

Sempre's vision transcends traditional design. We are Creators of Atmospheres, crafting environments that resonate emotionally and leave lasting impressions. Our philosophy blends natural and organic elements with rigorous attention to detail, creating spaces that captivate and support the aspirations of our clients.

This vision is reflected in all our collections, crafted to harmonize natural beauty with meticulous attention to detail.

At Sempre, our strength lies in our ability to create a vibe with sustainable and luxurious products. Our products are not only designed to be aesthetically pleasing but also to stand the test of time, both in terms of durability and style. This unique blend of eco-friendliness, quality, and timeless design makes us the go-to choice for discerning clients.

# Inspiration

# How it's made

At Sempre, our furniture is a testament to the harmonious blend of sustainability, craftsmanship, and timeless design. Each piece begins its journey as reclaimed teak or oak, salvaged from old houses, bridges, boats, and railway sleepers—some of which have stood the test of time for over 80 years. By repurposing these seasoned materials, we not only give them a second life but also reduce the demand for new timber, allowing the world's forests to regenerate and thrive. Quality and timeless design makes us the go-to choice for discerning clients.

Teak, with its legendary durability and resistance to decay, is a material of remarkable resilience. The reclaimed teak we use retains the same high quality as freshly cut wood,

making it an ideal choice for furniture that is built to last. Every scratch, groove, and patina on the surface of the wood tells a story of its past, infusing each piece with a sense of history and character that is impossible to replicate with new materials.

In addition to wood, we also incorporate rattan into our designs—a natural, sustainable material that complements the rustic elegance of our reclaimed timber. The rattan we use is untreated, retaining its natural light brown hue, which adds warmth and texture to our furniture. Whether woven into the seats of chairs or used to create intricate patterns on cabinet doors, rattan brings a touch of nature indoors, enhancing the organic beauty of our designs.

# Materials

The materials we choose are not merely functional elements; they are the essence of the story each product tells and are integral to the distinctive Sempre vibe. Every material carries with it a unique history, a distinct texture, and a natural beauty that we carefully honor. These materials form the foundation of each piece, contributing to the atmosphere that Sempre strives to create—an environment that feels both grounded and inspired.

Our approach to materials is rooted in the belief that they should reflect both their journey and their potential, embodying the timeless elegance and authenticity that defines the Sempre brand. Whether we leave the stone in its natural state to celebrate its raw elegance or select wood that showcases its grain and depth, each choice enhances the cohesive, organic atmosphere that is central to the Sempre experience. The material's inherent qualities not only give each piece its true character but also play a crucial role in crafting spaces that resonate with the quiet sophistication and enduring beauty Sempre is known for.

# Fabrics

## Fabrics collection by Karine Bonjean

I received a request from Sempre In & Outdoor Living (Sempre) to design an exclusive collection of fabrics. Sempre is known for its beautiful organic natural materials from amongst others the Far East. When I first visited the company, I immediately had a good feeling. The massive materials that exude strength and natural energy instantly inspired creative ideas.

The design process was deeply connected to the essence of the East, something I found exhilarating. Having traveled extensively to the East myself, I felt an immediate connection. Warm colors with rich textures and softness, suitable for both indoor and outdoor atmospheres, became the focal point of my designs. The beautiful fabrics and colors flow into one another, creating a cohesive whole and bringing a tropical breeze to every project.

I am thrilled to announce that Sempre is presenting this collection, where the atmosphere and connection are perfectly aligned. Discover the new mood and timeless designs of Sempre, and experience the essence of our creations firsthand.

With love for creativity and respect for nature,

*Karine Bonjean, founder Evolution21*

Our catalogue showcases a selection of standard materials and finishes, with a curated range of additional options available upon request. If you have a specific concept in mind, we welcome you to share your vision, and we will work with you to tailor it within the parameters of our available customization and production options.

For those seeking something truly unique, we invite you to explore our “Bespoke Items and Projects” catalogue, which offers a carefully curated set of new textures and finishes. These options allow us to craft a distinctive, handcrafted piece that aligns with your preferences, while staying within our established design framework.

In terms of use, we clearly indicate when a product is specifically designed for

outdoor environments. These products are constructed with features that enhance durability in various weather conditions, such as water drainage and material expansion. While these adaptations reduce the risk of weather-related damage, some natural wear over time is to be expected.

Our “Semi” category strikes a balance between indoor elegance and occasional outdoor use. Primarily designed for indoor settings, these items can also be used outdoors under favorable conditions, though they are not intended for prolonged exposure to moisture or direct sunlight.

To maintain their appearance and longevity, we recommend limited outdoor use, ideally in protected spaces like sunrooms or covered patios.
